

Product Name: Granular Flocculant

Product Code: SP412

Product Description

Granular Flocculant is added to the skimmer basket after backwashing to put a gel like coat on the filter which enables particles which would normally pass through the filter to be filtered out. Not suitable for use with cartridge filters or diatomaceous earth filters.

Dosing Instructions

Backwash the filter then add **250 grams of Granular Flocculant per 10,000 gallons of pool water** into the skimmer or strainer basket.

The pool filter should run continuously for at least 24 hours and only backwashed during this time if the pressure rises to the level recommended for backwashing. In the event of backwashing repeat the dose.

WEIGHT:

Chemical: Aluminium Sulphate

EC Label Number: 233-135-0

CAS Number: 10043-01-03

Danger

Causes serious eye damage. Mildly irritating to respiratory system. Mildly irritating to skin

Avoid breathing dust/fume/gas/mist/vapours/spray.

Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
