PLEASE READ LABEL BEFORE USE

Very fine microscopic particles may not be removed by your filter making the water seem cloudy and dull. Spa Clarifier is formulated to link these particles together allowing them to be trapped and removed by the filter, restoring clarity and sparkle to your spa water.

For use in spas

Test regularly

Never mix chemicals

Leave for 30 minutes

DIRECTIONS FOR USE

1. Test the spa water to ensure the correct pH and sanitiser levels are in place, adjust if necessary.
2. Remove, clean and replace your filter cartridge.
3. Shake bottle before adding measured dose directly over the surface of your spa water.
4. Ensure your spa is running and leave running for at least 1 hour.
5. Repeat dose if necessary.
6. Leave for 30 mins before using your spa.

Spas with excessive total dissolved solids (TDS) will need to be drained, cleaned and refilled.
