

Product Name: 20g Multifunctional Tablets

Product Code: SP131

Product Description

A 20g chlorine tablet that also contains an algaecide and a flocculant. Used as a sanitiser for swimming pools and spas.

Dosing Instructions

Remove plastic wrapping and place tablets in the skimmer basket or floating dispenser. Never place tablets directly into the pool, as severe bleaching or staining may occur.

If using a feeder or dispenser ensure that the tablets used are the same chemical (trichloroisocyanuric acid). If another material has been used before, wash out the feeder thoroughly before adding tablets.

Pool

Skimmer: 1 tablet per 1,000 gallons of pool water. It will take 3 to 5 days to dissolve.

Floating Dispenser: Fill the dispenser and adjust collar to get correct rate of dissolution. Tablets will take 5 to 7 days to dissolve. Check chlorine levels regularly with a test kit and maintain a chlorine residual of 1 to 3 parts per million (ppm).

Once a fortnight (or once a week during the summer) boost the chlorine level with the addition of Chlorine Shock (Calcium Hypochlorite Granules).

Spa

Floating Dispenser: Place 1-3 tablets in the dispenser and adjust the collar to get correct rate of dissolution.

Tablets will take 2-3 days to dissolve. Check chlorine levels regularly with a test kit and maintain a chlorine residual of 2 to 4 ppm.

WEIGHT:

Contains: Trichloroisocyanuric Acid (Symclosene) **UN Number:** 2468

Index Number: 613-031-00-5 **EC Number:** 201-782-8 **CAS No:** 000087-90-1

Danger

May intensify fire; oxidizer.

Harmful if swallowed.

Causes serious eye irritation.

May cause respiratory irritation.

Very toxic to aquatic life with long lasting effects.
