

Product Name: 200g Multifunctional Tablets

Product Code: SP132

Product Description

A 200g chlorine tablet that also contains an algaecide and a flocculant. Used as a sanitiser for swimming pools.

Dosing Instructions

Remove plastic wrapping and place tablets in the skimmer basket or floating dispenser. Never place tablets directly into the pool, as severe bleaching or staining may occur.

If using a feeder or dispenser ensure that the tablets used are the same chemical (trichloroisocyanuric acid). If another material has been used before, wash out the feeder thoroughly before adding tablets.

Pool

Skimmer: 1 tablet per 10,000 gallons of pool water. It will take 5 to 7 days to dissolve.

Floating Dispenser: Add 1 tablet per 7,000 gallons of pool water. It will take 10-14 days to dissolve. Check chlorine levels regularly with a test kit and maintain a chlorine residual of 1 to 3 parts per million (ppm).

Once a fortnight (or once a week during the summer) boost the chlorine level with the addition of Chlorine Shock (Calcium Hypochlorite Granules).

WEIGHT:

Contains: Trichloroisocyanuric Acid (Symclosene) **UN Number:** 2468

Index Number: 613-031-00-5 **EC Number:** 201-782-8 **CAS No:** 000087-90-1

Danger

May intensify fire; oxidizer.

Harmful if swallowed.

Causes serious eye irritation.

May cause respiratory irritation.

Very toxic to aquatic life with long lasting effects.
