

Product Name: Dry Acid (pH Reducer)

Product Code: SP202

Product Description

Decreases the pH level and alkalinity level in the pool or spa.

Dosing Instructions

Please note when altering the pH level always make sure the alkalinity level is correct before changing the pH level.

Fill a clean plastic container with warm water and add the required amount of pH Decreaser to the container. Stir well with a clean wooden or plastic stirrer. Once fully dissolved, distribute the solution around the pool with the filter operating.

Stating an accurate dosing amount can often be difficult due to the different nature of water supplies around the UK. The correct level required for your pool will become evident after a few doses, but as a general guide follow the guidelines below.

Pool

Add **450 grams per 10,000 gallons** of pool water. Leave for 24 hours then re-test to ensure the pH level is between 7.2 and 7.6.

Spa

Add **11 grams per 1,000 litres** of spa water. Leave for 24 hours then re-test to ensure the pH level is between 7.2 and 7.6. Repeat the dose if necessary.

For chlorine to be effective pool and spa water should be kept at a pH level 7.2.-7.6.

WEIGHT:

Contains: Sodium Bisulphate

Index No: 016-046-00-X **EC Number:** 231-665-7

CAS Number: 7681-38-1

Danger

Causes serious eye damage.

Keep out of reach of children.

Wear protective gloves/protective clothing/eye protection/face protection.

Do not get in eyes, on skin, or on clothing.

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Store in a dry place.

Dispose of contents/container in accordance with local/regional/national/international regulations.

Warning! Do not use together with other products. May release dangerous gases (chlorine).

General Health and Safety Information

- Wear suitable gloves and eye/face protection.
- Never mix with other chemicals as dangerous reactions may occur.
- Add chemicals to water and not vice versa.
- Keep in a secure, cool, dry, well ventilated place.
- Keep containers closed when not in use.
- Wash hands after handling chemicals.
- Rinse container thoroughly in pool water prior to disposal or recycling.
