

Product Name: Alkalinity Builder

Product Code: SP222

Product Description

Increases the alkalinity level in a pool or spa. It will also slowly increase the pH level in a spa.

Dosing Instructions

Add the required amount of Alkalinity Builder directly to the pool or spa. It will sink to the bottom but will quickly dissolve if brushed.

Pool

1kg (10 scoops) will increase the alkalinity level by 12 parts per million (ppm) in a 10,000 gallon pool. Leave for 24 hours then re-test to ensure the alkalinity level is between 80 and 160ppm.

Spa

100 grams (1 scoop) will increase the alkalinity level by 50ppm in a 1,000 litre spa. Leave for 24 hours then re-test to ensure the alkalinity level is between 80 and 160ppm.

WEIGHT:

Chemical: Sodium Bicarbonate

EC Number: 205-633-8

CAS Number: 000144-55-8

Warning

This product is not a dangerous substance under the classification, labelling or packaging regulations. Under the current CLP regulations hazard and precautionary statements are not assigned to the product.
