

**Product Name:** Long-Life  
Algaecide

**Product Code:** SP322

### Product Description

A concentrated long-life algaecide which helps prevent algae over a longer period of time.

### Dosing Instructions

Dilute the required amount of Long-life Algaecide with warm water in a clean plastic bucket and add slowly into a skimmer or distribute evenly around the pool with the filter operating.

### Pool

**Add 2.5 litres per 10,000 gallons** of pool water and leave for 24 hours. This dose will help prevent algae for up to 3 months.

**Please note to treat established algae you must shock the pool with chlorine first before adding the algaecide.**

**WEIGHT:**

**Contains:** Polymeric Quaternary ammonium compound and organic phosphonate, copper complex.

### Warning

Harmful if swallowed.

Causes serious eye irritation.

Very toxic to aquatic life with long lasting effects.

### Safety

Keep out of the reach of children.

Wear protective gloves/protective clothing/eye protection/face protection.

IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
